

DART JOB DESCRIPTION

A. GENERAL INFORMATION

Position Title:	Data Analyst Intern
Post Duration:	6 Months
Days of Work:	Monday to Saturday
Type of Internship:	Paid
Job Location:	Solar HO, Extension, Nagpur

B. REQUIRED SKILLS

Skills	1. Proficiency in programming languages such as Python and SQL. 2. Familiarity with data manipulation libraries (e.g., pandas, numpy, seaborn, matplotlib) and visualization tools such as Power BI. 3. Hands on knowledge of ML algorithms, Neural Networks and interest in NLP models. 4. Basic knowledge of LLM models and their respective architectures.
Other	1. Strong problem-solving abilities and analytical thinking. 2. Excellent communication skills for collaborating with cross-functional teams. 3. Eagerness to learn and adapt to new technologies and challenges.

C. ROLES & RESPONSIBILITY

Data Collection	1. Gather, clean, and preprocess data from various sources, ensuring data quality and integrity.
Exploratory Data Analysis (EDA)	1. Conduct exploratory data analysis to identify trends, patterns, and outliers in the data.
Data Visualization	1. Create informative and visually appealing charts, graphs, and dashboards to communicate insights effectively. 2. Statistical Analysis: Apply statistical techniques to analyze data and derive meaningful conclusions.

Machine Learning	1. Assist in building and fine-tuning machine learning models for predictive analytics or classification tasks. 2. Test and evaluate models and scripts for performance, accuracy and efficiency.
Documentation	1. Maintain detailed documentation of data analysis processes and methodologies.
Collaboration	1. Collaborate with cross-functional teams to understand business objectives and align data analysis efforts accordingly
Reporting	1. Generate regular reports and presentations to communicate analysis results to non-technical stakeholders.

D. EDUCATION REQUIRED

Education:	1. Degree in Computer Science 2. Electrical 3. Electronics 4. Information Technology 5. Or Related Fields
